

Using Kaltura's Interactive Video Quiz Function

Kaltura's Interactive Video Quizzing allows you to:

- Apply short quizzes to test general understanding
- Assign long quizzes for topic mastery
- Develop and administer test preparation by a teaching assistant
- Design and prepare professional certifications
- Add marketing surveys for viewer feedback
- Use as a test for video validity: "was this video helpful?"
- Test with no score: feedback to creator only

The first step is to add a new Kaltura Media Link.

Either select one of your video's or choose to upload new media.

The quiz video editor will open, note you should maximise your browser to full screen.

On the quiz editor opening screen you can update the quiz name, welcome message, decide if you want an in-video tip and decide if you would like the students to be able to download a copy of the quiz questions before they watch the video.

The screenshot shows the 'Quiz Editor' interface. At the top, the breadcrumb navigation reads 'Quiz Creator > Media Selection > Quiz Editor'. The main area is split into two parts: a video player on the left and a settings panel on the right. The video player shows a scene of horses running on a beach. The settings panel is titled 'General' and includes a 'Revert to defaults' link. It contains the following fields and options:

- Quiz Name:** A text input field containing 'Wildlife - Quiz'.
- Welcome Message:** A text input field containing 'Welcome, In this video, you will be given a Qui'.
- In-Video Tip:** A checked checkbox with the text: 'The following text will be displayed: "All questions must be answered. The quiz will be submitted at the end."'.
- Question List:** A checked checkbox with the text: 'Your viewers will be able to download the quiz question list before they start playing the media'.

At the bottom of the settings panel is an 'Apply >' button. Below the video player is a timeline with markers at 0:00, 0:06, 0:11, 0:17, 0:23, and 0:28. At the bottom of the interface are two buttons: 'Back to Browse and Embed' and 'Preview Quiz'.

There are other options available by clicking the three dots and selecting an option.

This screenshot shows the same 'Quiz Editor' interface as the previous one, but with the settings menu open. A red box highlights the three-dot menu icon in the top right corner of the video player. The menu is open, showing the following options:

- General
- General
- Experience
- Score
- Add Questions

The 'General' settings panel is still visible behind the menu. At the bottom of the interface, the buttons are now 'Go To Media' and 'Preview Quiz'.

To add a quiz question, play the video and pause at the point you want to add a question.

Click on the plus sign button on the video to add you question.

Quiz Creator > Media Selection > Quiz Editor

General [Revert to defaults](#)

Quiz Name
Wildlife - Quiz

Welcome Message
Welcome, In this video, you will be given a Qui

In-Video Tip
The following text will be displayed:
"All questions must be answered. The quiz will be submitted at the end."

Question List
Your viewers will be able to download the quiz question list before they start playing the media

[Apply >](#)

[Back to Browse and Embed](#) [Preview Quiz](#)

Enter your question and answers, with the correct answer being in the first green box. You can change the order of the boxes by dragging them into place using the drag handles at the beginning and end of each box.

Click Save to continue watching and inserting further quiz questions.

Quiz Creator > Media Selection > Quiz Editor

Add Questions

How to Add a Question:

Start playing the video
Pause where you want a question to be added.
Press the '+' button to add a question and related answers
Don't forget to shuffle the answers!
You can add and edit as much as you like.

Be sure to shuffle your answers.

[Delete](#) [Save](#)

[Back to Browse and Embed](#) [Preview Quiz](#)

After you have completed entering your quiz questions click Preview Quiz to check that the quiz works correctly.

If you're happy with the quiz click 'Back to Browse and Embed'

Click 'Select' to select your video, then click 'Embed' to make the video quiz available to students.

Blackboard will present you with the 'Create Mashup Item' where you can enter the video title, description etc.

You can check that the quiz works correctly by going into the Blackboard student preview mode.

Reviewing Quiz Results

You can see the results of students completing the quiz in your 'My Media' area.

You can access My Media on the Blackboard 'My Units of Study' page, it's located in the bottom left column.

You can filter your video's so you only see those that contain a quiz.

Click the video title, then on the next page click the 'Actions' button and select 'Analytics'

Under the 'Quiz Questions' and 'Quiz Users' links you can see your students answers to the quiz questions and you will have the option to download a csv file of their responses.
